## KK60-5 Extra Heavy Flange Galvanized Steel 3/4" IPS (1.09" ID)

A heavy duty flange, with wide base, for spreading loads over a large surface area. This flange, with holes provided for countersunk flat head screw fixings only, is for use on structures where the fixing required is positional only. Frequently used as a wall fixing bracket. Ø indicates diameter of fixing holes. It is not recommended for use as a base flange to support guardrailing or balustrading.
