

**00-PR53/L** PR53 - 24" High Booth Divider Post (Polished Brass, Corner)

PR53 Divider Booth Posts are made of brass *or* 304 grade stainless steel, are made of 1-1/2" round tube, have a height of 24", and are designed to hold 1/4" thick panels. Each post comes with a half-ball end cap on top, a round flange attached at the bottom, and one or two u-channels that hold the panels in place.

PR53 **does not have a stopper** at the bottom of the channel and therefore allows the panel to rest on the flange.

Maximum center-to-center post spacing is 4 feet.

**Material Care:**

For Brass: maintain a polished finish with metal polish, item# 00202. Apply with a soft, damp cloth.

For Stainless Steel: maintain with stainless steel cleaner and protectant, item# CAE-ZCLeankIT.

Consult local building codes for rail height, wall offset and other requirements.
