

51DB-9000/36/F/L 9000/36/F - Floor Mount 36" Post for Picket Railing (Aluminum Dark Bronze, Corner)

This 36" High Floor Mount Corner Post is a 2-1/2" square aluminum post that has four machined holes that are designed to receive the top and bottom rails of two picket rail panels at a 90 degree angle. This post has a dark bronze paint finish.

The machined holes in the post allow for the panels to connect to the posts in a clean and seamless way.

Maximum recommended center-to-center spacing for posts is 6 feet.

Consult local building code for specific requirements in your area.
