

**51BK-9000/42/F/R** 2-1/2" Square 42" H Floor Mount Receiver Post for Picket Rail - Aluminum -Black

This 42" High Floor Mount Corner Post is a 2-1/2" square aluminum post that has four machined holes that are designed to receive the top and bottom rails of two picket rail panels at a 90 degree angle. This post has a black paint finish. The machined holes in the post allow for the panels to connect to the posts in a clean and seamless way.

Maximum recommended center-to-center spacing for posts is 6 feet.

Consult local building code for specific requirements in your area.
