

51DB-9000/42/F/E 2-1/2" Square 42" H Floor Mount End Post for Picket Rail - Aluminum -Dark Bronze

This 42" High Floor Mount End Post is a 2-1/2" square aluminum post that has two machined holes that are designed to receive the top and bottom rails of one picket rail panel. This post has a dark bronze paint finish.

The machined holes in the post allow for the panels to connect to the posts in a clean and seamless way.

Maximum recommended center-to-center spacing for posts is 6 feet.

Consult local building code for specific requirements in your area.
