

00-PR53/L 24" High Booth Divider Corner Post in Polished Brass

PR53 Divider Booth Posts are made of brass *or* 304 grade stainless steel, are made of 1-1/2" round tube, have a height of 24", and are designed to hold 1/4" thick panels. Each post comes with a half-ball end cap on top, a round flange attached at the bottom, and one or two u-channels that hold the panels in place.

PR53 *does not have a stopper* at the bottom of the channel and therefore allows the panel to rest on the flange.

Maximum center-to-center post spacing is 4 feet.

Material Care:

For Brass: maintain a polished finish with metal polish, item# 00202. Apply with a soft, damp cloth.

For Stainless Steel: maintain with stainless steel cleaner and protectant, item# CAE-ZClearnKIT.

Consult local building codes for rail height, wall offset and other requirements.
