KKBC53-88

SPEC-SHEET

KKBC53-88 Swivel Elbow Galvanized Steel 1-1/2" IPS (1.94" ID)

The KK53-8 fitting has been designed as a variable angle inline connection, adjustable through 202°. An entire structure should not be constructed from KK53-8 or any other swivel fitting, as these types would not provide sufficient stability or rigidity in the structure due to the free rotation of the fitting.

Part	Weight	A	D	E
BC53-88	2.51 lbs.	8	3.27 in.	1.77 in.
