KK75-6

SPEC-SHEET

KK75-6 Collar Galvanized Steel 1" IPS (1.38" ID)

A collar commonly used to support another fitting if the latter is required to be left untightened, such as on gate hinges. Type 75 is also useful when the loading on a structure exceeds the maximum permitted slip load for a set screw, as it gives extra support.

Part	Weight	A	D
75-4	0.11 lbs.	4	0.87 in.
75-5	0.29 lbs.	5	0.98 in.
75-6	0.29 lbs.	6	1.02 in.
75-7	0.33 lbs.	7	0.98 in.
75-8	0.42 lbs.	8	0.98 in.
