# KK16-9

**SPEC-SHEET**

## KK16-9 Clamp-on Tee Galvanized Steel 2" IPS (2.41" ID)

Widely used for adding to and modifying existing structures. This performs the same function as a KK10, but because of its open socket, it can be added to a complete structure. For alternative fitting, see KKA10. KK25 should be used when a join in the pipe is necessary.

| Part | Weight | A | D |
|---|---|---|---|
| **16-5** | 0.64 lbs. | 5 | 1.97 in. |
| **16-6** | 0.73 lbs. | 6 | 2.05 in. |
| **16-7** | 1.3 lbs. | 7 | 2.68 in. |
| **16-8** | 1.32 lbs. | 8 | 2.87 in. |
| **16-9** | 2.02 lbs. | 9 | 3.54 in. |
