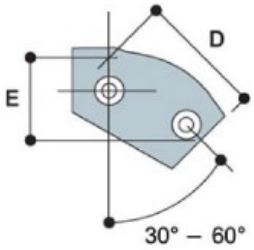
KK29-6

SPEC-SHEET

KK29-6 30 Degree to 60 Degree Single Socket Tee Galvanized Steel 1" IPS (1.38" ID)



Designed as an alternative to the KK12 fitting, this adjustable fitting is most frequently used for bracing and struts. It may be used at any selected angle between 30° and 60°. As an alternative, it is possible to use KK29 in its vertical position in place of the KK27, using the KK27 only where a join in the pipe occurs.

Part	Weight	A	D	E
29-6	0.97 lbs.	6	2.87 in.	2.52 in.
22-760-7	1.39 lbs.	7	3.5 in.	2.91 in.
29-8	2.13 lbs.	8	4.02 in.	2.68 in.
