KKA40-8

SPEC-SHEET

KKA40-8 Split Four Socket Cross Galvanized Steel 1-1/2" IPS (1.94" ID)

The unique "Hinge and Pin" system of this fitting enables existing structures to be easily extended without the need for dismantling. This fitting is most frequently used in multiple upright structures to tie a center upright with horizontal pipes in four directions. The upright passes through the fitting.

Part	Weight	A	D	E	F
