00-600/2

SPEC-SHEET

00-600/2 Polished Brass Flush End Cap 2" OD

The 00-600/2 flush end cap is made of brass, has a polished finish and provides a simple and smooth, flush finish to the end of a tube.

Use with matching brass tube, item# 00-A120. Place the neck of the end cap inside the tube and fasten into place using item LB-00201.

Flush end caps can be used at the end of a handrail, on the top of a a railing post and at the end for bar foot rails.

Note: this end cap is designed to have a neck that fits INSIDE tube, not over it.

Consult local building codes for rail height, wall offset, railing termination and other requirements.
