QS-247

SPEC-SHEET

QS-247 Concrete Anchor Bolt Finish in Stainless Steel 316 - Size M8 - Length-2-61/64"

- Anchor bolt for push-through installation.
- When the hexagonal nut is tightened, the tapered bolt is pulled into the expansion clip and expands it against the drill hole wall.
- Made of stainless steel A4 for outdoor applications and damp rooms. Highly corrosion-resistant steel (material number 1.4529) for application in aggressive atmospheres.
- With large pre-assenbled washer for fixings in oblong holes.
- Optimised expansion clip ensures uniform load distribution for high permissible loads and small edge distances and axial spacings with structural elements, as well as secure expansion, even in cracked concrete.
- Installation-friendly, since only a few revolutions are necessary to apply the torque
