51BK-9000/42/F/C

SPEC-SHEET

51BK-9000/42/F/C 2-1/2" Square 42" H Floor Mount Center Post for Picket Rail - Aluminum -Black

This 42" High Floor Mount Center Post is a 2-1/2" square aluminum post that has four machined holes that are designed to receive the top and bottom rails of two picket rail panels. This post has a black paint finish.
The machined holes in the post allow for the panels to connect to the posts in a clean and seamless way.

Maximum recommended center-to-center spacing for posts is 6 feet.

Consult local building code for specific requirements in your area.
